

HYLOCORE Workshop

on

Modal and Epistemic Logic

Friday October 14th, 2011, Room 42-2.10, Building 42, RUC

Program:

9.30-10.30 Wiebe van der Hoek (The University of Liverpool, UK)
“Reasoning about Local Properties in Modal Logic”

10.30-11.00 Coffee break

11.00-12.00 Thomas Bolander (Technical University of Denmark)
“Epistemic planning for single- and multi-agent systems”

12.00-13.30 Lunch

13.30-14.30 Barteld Kooi (University of Groningen, The Netherlands)
“Arrow Update Logic”

14.30-15.00 Coffee break

15.00 -16.00 Valentin Goranko (Technical University of Denmark)
“On the dynamics of knowledge and abilities of players in multi-player games: an attempt to wed ATEL with DEL”

16.00-16.15 Coffee break

16.15-17.15 Rasmus K. Rendsvig (Roskilde University, Denmark)
“Characteristic Cascades: Structure and Resolution”

Organizer: Jens Ulrik Hansen (jensuh@ruc.dk)

The project HYLOCORE (Hybrid Logic, Computation, and Reasoning Methods)
is funded by The Danish Natural Science Research Council
